Guardian Introductions...2

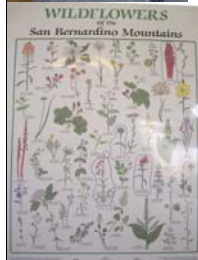

## TEACHER INTRODUCTIONS

Hi, my name is **Wu Hsin-Lan**, and I am the teacher for **Arts and Crafts**. By teaching arts and crafts, I would like to try and get the campers to understand Chinese culture. I would like Taiwanese-American children to be able to do these arts and crafts and understand their

background, as well as have a fun time at camp.

Hi, my name is **Rusty L.M. Chang**, and I am the instructor for **Hiking**. I enjoy being the instructor for hiking because it is a very good experience that allows students to explore nature.

Hiking is for enjoyment and leadership sharing purposes. I have planned a wildflower-searching contest while the students hike throughout the week at Big Bear Camp.

Hi, my name is **Tang Chia-Feng**, and I am the teacher of **Folk Dance**. I teach Chinese Folk Dance because I hope the Chinese culture can be continuously passed down through generations, especially for the children over seas, to forever remember their heritage.

Hi, my name is **Peter Liu**, and I am the instructor of **Canoeing**. I am the principal of Torrance Chinese School, and I will take over for the blue boys' guardian later in the week.

Hi, my name is **Charlene**, and I teach **International Manners**. The reason I am here for this SCCCS Summer Camp is that the Camp director, Ming-Fen Yeh,

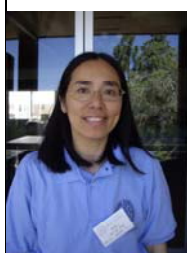

invited me and I would like to bring some of my talents to Chinese Students. I love teaching International Manners because it is a very new subject to all Chinese students, and for being an ESL teacher for more than eight years, teaching International Manners is something new to me, too.

Hi, my name is **Chan Yi-kan**, and I am the teacher of **Folk Sports**. Because Mr. Xie believes that baseball, basketball, and soccer are all "foreign" influenced, he began in 1975 to promote "cultural sports" – jump rope, hacky sack, Chinese yoyo, and tops. These activities all have a 1500 year history; Chinese yoyo was even passed to Europe, known there as "diabolo".

These activities are fun, provide physical training, and enhance focus. They are very good mental exercises. I hope everyone will enjoy it.

## GUARDIAN INTRODUCTIONS

Hi, I'm **Jennifer Tu**. I am a teacher at North Orange Chinese school and have taught there for 13 years, usually teaching younger kids. I'm very happy to have this chance to help the kids of Southern California Council of Chinese Schools in their summer

camp trip to Big Bear Lake. I am the guardian of the **yellow girls' group**. We have a group of adorable and obedient little girls, as well as three hard working and responsible counselors. I'm sure these six days will be a fun and unforgettable experience.

Hi, I'm **Jean**, the guardian of the **yellow boys' group**. I'm very happy to have this opportunity to go up in the mountains and serve these groups of kids. I hope that under the help of so many counselors, staffs, and guardians that the kids have a happy summer. I'm very touched that so many teenagers and

teachers are willing to join the children on the mountain for a week, giving it their all. I'm very honored to be part of it.

Hi, I'm **Rita Kao**, the guardian of the **green girls' group**. I'm very happy to have this chance to participate in Southern California Council of Chinese Schools. I hope that we successfully execute our mission at this scenic location with

plentiful mountains and the beautiful Big Bear Lake, and that we have a joyous time while gaining the chance of a lifetime.

Hi, I'm **Ali Liu**, the guardian of the **green boys' group**. I like to take care of kids, and I have worked in several positions, such as Principal Board Director, in Westside Chinese School for the past eight years. I tried several times to serve at the Big Bear Summer Camp, but I used my vacation days to

China in he past three years. Finally, I got my chance to work as guardian this year, and I like the kids in my team because they are very polite.

Hi, I'm **Anita Chang**, the guardian of the **blue girls' group**. I hope that from this camp, we will be able to help the students. I hope that in the future, our own children can learn in a good environment.

Hi, I'm **Max Jen**, the guardian of the **blue boys' group**. This is my third year here at camp, and I used to be the Cerritos Chinese School Principal. From the last time I've been here, I noticed that four to five of the boys' group have been to camp, and are returning participants.
