華語文教師的線上工具：My simple Booklet

<http://simplebooklet.com/index.php#>

The screenshot shows the My simple Booklet website interface. At the top, there is a navigation bar with a "my booklets" dropdown, a prominent orange "create" button, and icons for save, add, delete, search, share, account, and home. Below the navigation bar, the main content area features the Simple Booklet logo and the headline "Simple web sliders. Post everywhere." followed by the subtext "Create product guides, promotions, and brochures you can post to your website and across the social web". A central image shows a computer monitor displaying a "Car Sale" booklet, with several other booklet designs shown in a perspective view to the right. On the left side, a list of features is provided: Drag and Drop Editor, Any Size, Post Everywhere, Template Gallery, Search Engine Ready, and Free. At the bottom, there are "Get started" and "Learn more" buttons, along with social media sharing options for Twitter, Facebook, and a "Send" button. The footer includes "Company Blog", "Education Version", and social media counts for Twitter (+1), Facebook (8), and Facebook Like (380).

The screenshot shows a dark-themed dialog box titled "Name your new booklet" with a close button (X) in the top right corner. It contains a text input field for "name", a dropdown menu for "Choose a booklet type (you can change this later)" currently set to "Flyer (760x410)", and two buttons: "create" and "cancel". Below this, there is a section titled "Or start with a Template" with two template preview cards: "Business Templates" and "Education Templates".
