Custom Digital Flag Prices

Digital printed custom flags create a true image. We can print it! No limits on colors, images or possibilities. All prints are made digitally, using best quality acid dye ink chemistry. Ink is directly printed onto 200 denier nylon. Material is rigid and durable enough for outdoor use, but lustrous enough for indoor display. Possibilities are endless with this product and you CAN EVEN MAKE JUST 1 FLAG!

Our prices below are for single/reverse flags and are finished with a polyester heading and brass grommets. Penetration is about 90% - 95% on the reverse side. You can add a pole sleeve and/or fringe for an additional cost. For two sided flags which read correctly on both sides add 100%

Prices are based on the receipt of camera ready artwork and color clarification. For firm prices, please fax or email artwork and submit a request.
